**Overall Length:**

28.250 inches

**Overall Height:**

10.310 inches

**Overall Width:**

19.000 inches

**End Application:**

Reentry system test set (rst); the system is the defense metrological satellite program (dmsp)

**Design Type:**

Disk pack

**Unit Design:**

Rack mounted

**Voltage In Volts And Current Type:**

110.0 ac

**Drive Size:**

12.00

**Special Features:**

2400 rpm spindle speed; used with honeywell 3500 computer

**Unpackaged Unit Weight:**

135.000 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505e0
