**Overall Length:**

24.250 inches

**Overall Height:**

8.750 inches

**Overall Width:**

19.000 inches

**End Application:**

Used in support of 1270-01-347-7904; target designator set, electro-optical, an/avq-26 pave tack

**Features Provided:**

Autothreading and controller board

**Unit Design:**

Cabinet

**Voltage In Volts And Current Type:**

120.0 ac

**Accommodated Reel Size:**

7 or 10-1/2

**Physical Tape Format Type:**

Open reel

**Recording Tracks Per Head:**

9

**Accommodated Tape Width In Inches:**

0.50 open reel

**Read/write Speed In Inches Per Second:**

25.0 streaming

**Special Features:**

Q-bus controller; rack mountable; 40 kb per sec data transfer rate; 180 ips rewind speed; used with ba23 enclosures only

**Unpackaged Unit Weight:**

80.000 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A508g0
