Overall Length:

5.700 inches

Overall Height:

1.700 inches

Overall Width:

3.400 inches

End Application:

Digitization and transformation system (dats)

Voltage In Volts And Current Type:

5.0 dc

Special Features:

Rs232 trans/receive interface; 4 selcctable switch positions; 2.000 in.Dia ball; 300 to 38, 400 baud rate; includes auto baud; supports microsoft, mouse systems, logitech & summa-graphics software; case material: plastic; inclosure type: encased; power source: self-contain or external; terminal location: front

Unpackaged Unit Weight:

0.700 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A514a0
