Overall Length:

8.500 inches

Overall Height:

3.000 inches

Overall Width:

5.000 inches

End Application:

F111

Power Source:

External

Unit Design:

Desk top

Voltage In Volts And Current Type:

28.0 dc

Interface Type:

Rs 422

Special Features:

In conjunction with the ramu and sdr ro-605/a, the remote auxiliary memory unit receptacle allows the acquisition, storage and hand removal from the air vehicle of maintenance and structural loads and flight data

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A506x0
