Overall Length:

7.900 inches

Overall Height:

2.500 inches

Overall Width:

4.060 inches

Operating Temperature Range:

+32.0/+122.0 degrees fahrenheit

Special Features:

Input keys 3; 2.000 in.Dia polished phenolic ball 1; padded hand support; interface cable; instruction manual; instant cursor speed control; storage temp range: minus 4.0/plus 184.0 degrees f; power source: external; reference data, 17, ti-6315.1, fa 10347, terminal doppler weather radar, (tdwr), system, vol 1, sec 1-10, pg 8-7

Unpackaged Unit Weight:

0.938 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514a0
