Operating Temperature Range:

-10.0/+65.0 degrees celsius

Features Provided:

Electromagnetic interference shielding

Unit Design:

Panel mounted

Voltage In Volts And Current Type:

5.0 dc

Interface Type:

Rs 422

Special Features:

Three inch ball tracker; resolution of 300 pulses/revolution

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514a0
