Overall Length:

5.470 inches

Overall Height:

1.000 inches

Overall Width:

4.000 inches

End Application:

Radar simulator

Design Type:

Hard disk

Power Source:

External

Head Type And Quantity:

5 read/write

Unit Design:

Internal

Interface Type:

Scsi

Drive Quantity:

1

Data Storage Capacity:

2.16 gigabytes

Drive Height:

Full

Access Time In Milliseconds:

9.4

Tracks Per Inch:

5555.0

Drive Size:

3.50

Transfer Rate In Megabytes Per Second:

40.0

Special Features:

Barracuda 4lp drive, ultra-scsi wide

Unpackaged Unit Weight:

1.500 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505e0
