End Application:

Special tool and support equipment

Special Features:

This monitor is a general purpose 10 x 12 cm display. It has an accelerating potential of 14 kilovolts to give the user a bright clear display. This and various other features give the monitor a definite advantage over previous monitors of this size and performance. Features like z-axis gain control, blanking limit control and plus or minus blanking selection give the user more control of his display
