Power Source:

External

Special Features:

IEEE 802.3 10 base-t compliant, ethernet version 1.0 and 2.0 compatible; shared circuit design supports two au; jabber timer; switch-selectable signal quality error (sqe)/ heartbeat test with led; link, polarity and power led; receive, transmit and collision led; twisted pair transceiver

Functional Description:

Centrecom multiport (two port) transceivers provide electronic and physical interface between the ethernet 10base-t cabling and the IEEE 802.3/ethernet station data terminal equipment (dte)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
