AeroBase Group

View Online at https://aerobasegroup.com/nsn/7025-01-462-6462

Mounting Type:

Fixed

Power Source:

External

Input Intelligence Type:

Depth and compass heading and gyroscope-altitude data and ship course and present position latitude-longitude and navigation course selected and radar position data and present position

Output Intelligence Type:

Depth and navigation course selected and compass heading and radar position data and gyroscope-altitude data and ship course and present position and present position latitude-longitude

Features Provided:

Ruggedized

Criticality Code Justification:

Feat

Special Features:

Fmarine navigation interface modul (nim) takes input from multiple navigation instruments and outputs them as nema sentences understood by one or more receiving devices, typically navigation software

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
