Alternating Current Voltage Rating In Volts:

100.0 and 240.0

End Application:

Aircraft, eagle f-15, ug3500te01

Power Source:

External

Phase:

Single

Special Features:

Compatible with ieee and ieee 488.2, sustained throughout 50kbytes/s, gpib port - ieee488 standard 24pin, ethernet port (option) aui connection and either thin ethernet (10base2) or twisted pair ethernet (10baset); software not included with this item

Frequency In Hertz:

50.0 and 60.0

Supplementary Features:

Pib-enet/100hw, twpr, us 120vac

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
