Design Type:

Disk cartridge

Power Source:

Self-contained

Unit Design:

Free standing

Interface Type:

Scsi

Drive Quantity:

1

Data Storage Capacity:

8.00 gigabytes

Drive Size:

3.50

Transfer Rate In Megabytes Per Second:

33.0

Special Features:

Wscsi-2 interface; single ended, synch/asynch transmission; dds-2 reading format; 33 mb/min data xfer rate; 66 mb compressed 1 mg buffer; eeprom flash firmware; w/install guide, 3.5/5.25 in bezels, mtg hardware and diagnostic utility

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505e0
