Case Material:

Rubber

Operating Temperature Range:

-40.0/+125.0 degrees fahrenheit

Maximum Voltage Rating In Volts:

5.0 dc

Inclosure Type:

Encased

Terminal Location:

End

Power Source:

External

Mounting Method:

Panel

Terminal Type And Quantity:

6 pin and 9 pin

Maximumlength:

0.450 inches

Maximumwidth:

1.500 inches

Maximumheight:

3.500 inches

Special Features:

Three button design; click, drag and drop option, operates in windows and dos, compatibility with microsoft, logitech and ps/2 drivers, cables provided: serial 8 ft with 9-pin d-shell ps/2 and x-terminal 8 ft cable with 6-pin mini din

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
