Display Type:

Light emitting diode

Accessory Components And Quantity:

1 operating instructions

Voltage In Volts And Current Type:

7.0 ac

Special Features:

Real time clock operation w/millisecond precision; wall mounted; reads serial time code signals; digitally synchronizes multiple displays; intended for indoor use only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506z0
