Operating Tempurature Range:

+5.0/+30.0 degrees celsius

End Application:

Control, works, avenger class mcm

Features Provided:

Ruggedized

Unit Design:

Panel mounted

Voltage In Volts And Current Type:

120.0 ac

Interface Type:

Bnc

Input Device Type:

Keyboard and track ball

Output Device Type:

Liquid crystal

Special Features:

20 inch flat panel display

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A507b0
