**Operating Temperature Range:**

+5.0/+30.0 degrees celsius

**End Application:**

Control, works, avenger class mcm

**Features Provided:**

Ruggedized

**Unit Design:**

Panel mounted

**Voltage In Volts And Current Type:**

120.0 ac

**Interface Type:**

Bnc

**Input Device Type:**

Keyboard and track ball

**Output Device Type:**

Liquid crystal

**Special Features:**

20 inch flat panel display

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A507b0
