

View Online at <https://aerobasegroup.com/nsn/7025-01-491-6218>

Special Features:

Multifunction plus measurement and control module; designed for mixed sensor and signal data acquisition and control for verification of electromechanical components and assemblies design; 1 slot, c size; register based vxi module, ttl trigger bus; measures strain, temperature, current, voltage, resistance, frequency, rpm, ttl; 40 mhz dsp; measurement accuracy porm 0.01 pct; 14 watt; m2 to p14 vdc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A515y0
