**Overall Length:**

17.000 inches

**Overall Height:**

13.000 inches

**Overall Width:**

8.250 inches

**Operating Temperature Range:**

+5.0/+40.0 degrees celsius

**Printer Type:**

Thermal

**Unit Design:**

Free standing

**Voltage In Volts And Current Type:**

230.0 ac

**Interface Type:**

Centronics and rs 232c

**Special Features:**

Bar code printer; plastic case; auto calibration; media: continuous or fanfold, diecut, perforated, tag stock or notched; 4 in print speed  
102 mm/ps

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A506k0
