Overall Length:

17.000 inches

Overall Height:

13.000 inches

Overall Width:

8.250 inches

Operating Temperature Range:

+5.0/+40.0 degrees celsius

Printer Type:

Thermal

Unit Design:

Free standing

Voltage In Volts And Current Type:

230.0 ac

Interface Type:

Centronics and rs 232c

Special Features:

Bar code printer; plastic case; auto calibration; media: continuous or fanfold, diecut, perforated, tag stock or notched; 4 in print speed
102 mm/ps

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506k0
