Overall Length:

27.100 inches

Overall Height:

37.700 inches

Overall Width:

38.200 inches

Operating Temperature Range:

+00.0/+40.0 degrees celsius

End Application:

Am-4201 (0d2a6) , monitor, 42 inch

Display Type:

Cathode ray tube

Unit Design:

Free standing

Product Name:

Inavy monitor, 42in autosy

Interface Type:

Rs 232c

Highest Display Capability:

Rgb

Diagonal Display Size In Inches:

42.0

Display Resolution:

800 horizontal and 768 vertical

Special Features:

Power input: 120v 60hz; power consumption: 350w; unit net weight: 124kg (273.1lbs); picture tube: 42inches, tinted glass, 78 (h)x580(v)mm (rgb mode); speakers: rated input 50w max., dimensions: 103(w)x361(h)x180(d)mm; audio output: 5w plus 5w; input terminal: s-video input terminal, composite video input terminal (bnc/rca), rgb ttl input terminal (d-sub 9 pin), rgb analog input terminal (bnc/shrink d-sub 15 pin), audio input terminal (rca); output terminal: composite video output terminal (bnc), rgb analog output terminal (bnc/d-sub 15pin) (r/g/b/h/v), audio output terminal (rca) , speaker output terminal; ac power cord: 1.7 m length; unit is free standing but must be used with some type of cart or other means of support, the unit does not have support legs or wheels

Type/model Designation:

Am-4201r

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
