Storage Temperature Range:

-40.0/+100.0 degrees celsius

End Application:

Pki perripher

Voltage In Volts And Current Type:

5.0 dc

Special Features:

Eeprom memory capacity: 32k, read cycles: unlimited write/erase cycles: 100, 000, workstation interface: serial reader, usb reader, pcm
cia reader, software: datakey cip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
