Operating Temperature Range:

+5.0/+35.0 degrees celsius

Maximum Voltage Rating In Volts:

100.0 ac or 120.0 ac

Inclosure Type:

Encased

Maximumlength:

16.800 inches

Maximumwidth:

11.300 inches

Maximumheight:

3.500 inches

Special Features:

Connects to super fast scsi to windows, power macintosh and g3 systems; flatbed; color image; ccd resolution - 1200 dpi optical, resolution 9600 x 9600 dpi with interpolation; one-pass scanner; usb interface; scanning speed - 6.5msec/line color, 6.5 msec/line 256 gray level and 2.2msec/line line art

Frequency In Hertz:

49.5 or 60.5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A31700
