Mounting Type:

Rack

Unpackaged Unit Width:

17.00 inches

Unpackaged Unit Height:

3.50 inches

Power Source:

External

Input Intelligence Type:

Analog

Output Intelligence Type:

Analog

Product Name:

Microprocessor based switcher controller

Special Features:

Replaceable lithium battery provides data protection for 10 years, 16 video inputs, 2 or 4 video outputs, keyboard connector

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
