Overall Length:

4.780 inches

Overall Height:

11.450 inches

Overall Width:

2.520 inches

Operating Temperature Range:

-40.0/+170.0 degrees fahrenheit

End Application:

Panel assembly, control

Features Provided:

Ruggedized

Unit Design:

Panel mounted

Voltage In Volts And Current Type:

12.0 dc

Special Features:

Panel mount with plastic case; non-locking control knob; handle actuation is spring return, bi-directional; having proportional 12vdc center off switch electrical characteristic and a terminal strip internal connector; used in open loop systems or as a set point for analog or microprocessors

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514a0
