Overall Height:

19.000 inches

Overall Width:

24.400 inches

Operating Temperature Range:

+0.0/+50.0 degrees celsius

End Application:

Control workstation

Display Type:

Liquid crystal

Unit Design:

Panel mounted

Interface Type:

Db15

Highest Display Capability:

Vga

Diagonal Display Size In Inches:

24.0

Display Resolution:

1920 horizontal and 1200 vertical

Special Features:

Manufacturer nomenclature: 24 inch lcd monitor; pixel pitch: 0.270m; pixel rate: 200mhz; frequency range: 30-93 kh (h), 56-85hz(v); color: 16.7m ; power: on/working 95 watts , stand-by/suspend/off 5 watts; full screen display: (scaling) from vga through uxga, (native) wuxga (1920 x 1200) ; picture in picture, picture by picture; auxillary side speakers

Unpackaged Unit Weight:

30.400 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506z0
