Overall Height:

6.000 inches

Overall Width:

5.700 inches

End Application:

A310 airbus aircraft

Display Type:

Light emitting diode (I.E.D.).

Unit Design:

Panel mounted

Product Name:

Control display unit

Interface Type:

Edge connector

Special Features:

The front panel contains a brightness control, 24 data/control/function pushbutton switches and 3 lines of 16 character alpha/numeric display, 115v rms, 400 30 hz, single phase, 20 watt operating voltage 80 v rms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506z0
