**Product Name:**

Silkworm 3800 enterprise fabric switch

**Special Features:**

Brocade fabric shortest path first, fspf, enables the fabric to automatically isolate problems and reroute traffic around failed links onto alternate paths-ensuring availability for mission-critical enterprise applications

**Functional Description:**

Auto-sensing fibre channel switches increases performance and functionality for storage area networks; combines 1 and 2 gbit/sec fibre channel to enable 32 gbit/sec uncongested switch throughput; improve san security, availability, performance and centralized data management

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A30800
