Overall Length:

1.700 inches

Overall Height:

15.700 inches

Overall Width:

17.300 inches

Voltage In Volts And Current Type:

89.0 ac

Special Features:

2 10/100 ports; 3 mim slots; 1 console port; 1 aux serial port; mpc8240 200 mhz processor; nvram 128kb; boot ram 512 kb; sdram 256 mb; flash 8mb; ac line frequency 50/60 hz; input voltage neg 40 to neg 75 vdc; maximum power consumption 80 w; operating temp 0 degrees celsius to 40 degrees celsius; operating humidi type 10 to 90 percent; one year hardware warranty; 90 day software warranty

Functional Description:

Connect to lan acts as gateway between two different networks

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
