Overall Length:

1.433 inches

Overall Height:

0.155 inches

Overall Width:

1.685 inches

End Application:

Radar assembly

Current Rating:

21.000 milliamperes and 34.000 milliamperes

Voltage In Volts And Current Type:

5.0 dc

Product Name:

Disk drive unit

Special Features:

Data transfer rate to/from flash is 20.0 mb/sec burst, data transfer to/from host is 16.0 mb/sec burst, storage capacity of memory unit is 64 mb.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
