Storage Temperature Range:

-70.0/+125.0 degrees celsius

Current Rating:

10.000 milliamperes

Voltage In Volts And Current Type:

5.0 dc

Product Name:

Smart card

Special Features:

File-system card with an embedded microcontroller; iso-compliant; hardware and software protection against power and timing attacks

Color:

Blue

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
