Operating Temperature Range:

+32.0/+122.0 degrees fahrenheit

Maximum Voltage Rating In Volts:

5.5 dc

Operating Range:

Contact to 17 inches on 100 percent upc/ean symbols

Power Source:

Self-contained and external

Special Handling Feature:

Shock protected

Product Name:

Ls2208 bar code scanner

Special Features:

Liquid injection process delivers shock protection; multiple interfaces; fast performance at 100 scans per second; bright led and beeper with adjustable volume; flash memory; 5 volts voltage; host power or external powersupply; cash register white or twilightblack; bi directional scanner; 650 nm visible laser diode; minus 40 to plus 158degrees storage temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A31700
