Overall Length:

5.750 inches

Overall Height:

0.680 inches

Overall Width:

3.995 inches

Design Type:

Hard disk

Unit Design:

Internal

Product Name:

Disk drive, flash

Interface Type:

Scsi

Drive Quantity:

1

Data Storage Capacity:

16.00 gigabytes

Drive Size:

3.50

Special Features:

offers capacities from 64mb to 32gb; narrow 8-bit scsi bus bandwidth; single-ended signaling interface; idc 50-pin, non-shielded, low-density header; available in multiple temp ranges, 5v only operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505e0
