**Ac Voltage Rating:**

80.0 volts and 132.0 volts

**Frequency Rating:**

Between 47.0 hertz and 63.0 hertz

**Switch:**

Included

**End Application:**

Oxygen concentration system

**Electrical Power Source Relationship:**

Alternate operating

**Sectionalized Feature:**

Not included

**Illuminated Feature:**

Not included

**Internally Illuminated Feature:**

Not provided

**Product Name:**

Simulator/ac input module

**Phase:**

Single

**Special Features:**

Eight inputs per module; one commons per module (2 i/o terminal points; 132vac peak voltage; removable terminal type; 2.5 ounces

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T122-c
