| Ac Voltage Rating: |
|----------------------------------------------------------------------------------------------------------------------------------|
| 80.0 volts and 132.0 volts |
| Frequency Rating: |
| Between 47.0 hertz and 63.0 hertz |
| Switch: |
| Included |
| End Application: |
| Oxygen concentration system |
| Electrical Power Source Relationship: |
| Alternate operating |
| Sectionalized Feature: |
| Not included |
| Illuminated Feature: |
| Not included |
| Internally Illuminated Feature: |
| Not provided |
| Product Name: |
| Simulator/ac input module |
| Phase: |
| Single |
| Special Features: |
| Eight inputs per module; one commons per module (2 i/o terminal points; 132vac peak voltage; removable terminal type; 2.5 ounces |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| - |
| Demilitarization: |
| No |
| Fiig: |
| Т122-с |
| |
