Ac Voltage Rating:

15.0 volts and 264.0 volts

Frequency Rating:

Between 47.0 hertz and 63.0 hertz

Switch:

Included

End Application:

Oxygen concentration system

Electrical Power Source Relationship:

Alternate operating

Sectionalized Feature:

Not included

Illuminated Feature:

Not included

Internally Illuminated Feature:

Not provided

Product Name:

Ac output module

Phase:

Single

Special Features:

Eight outputs per module; one commons per module (2 i/o terminal points); ssr (triac) output type; 264vac peak voltage; 2.8 ounces

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T122-c
