Mounting Type:

Rack

End Application:

An/fpq-16 sensor system engineering and sustainment integrator

Unpackaged Unit Length:

207.00 millimeters

Unpackaged Unit Width:

330.00 millimeters

Unpackaged Unit Height:

43.00 millimeters

Input Intelligence Type:

Digital

Output Intelligence Type:

Digital

Product Name:

Switch, network

Special Features:

24 port gigabit rackmount switch; 48gigabit per sec switching bandwidth; 2mb packet buffer memory; 24 10/100/1000 mbps twisted-pair rj-45 ports; 40w maximum power consumption

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30800
