Overall Length:

5.250 inches

Overall Height:

18.000 inches

Overall Width:

19.000 inches

End Application:

Space lift range systems (slrs) recording system

Unit Design:

Rack mounted

Voltage In Volts And Current Type:

110.0 ac

Product Name:

Drive, mag optical

Interface Type:

Scsi

Accommodated Tape Width In Inches:

0.50 open reel

Special Features:

Plug and play tape drive replacement that requires no system hardware or software modification. Controlled through lcd operator panel. Connects to existing tape controller and cables.

Unpackaged Unit Weight:

23.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A508g0
