Mounting Type:

Base

Alternating Current Voltage Rating In Volts:

100.0 and 240.0

Unpackaged Unit Width:

5.70 inches

Unpackaged Unit Height:

1.00 inches

Power Source:

External

Product Name:

Mountable universal interface

Phase:

Single

Special Features:

15 pin hd input; id bit termination; operating temperature zero/50 degrees c; metal enclosure

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
