Overall Length:

8.000 inches

Overall Height:

1.680 inches

Overall Width:

5.870 inches

End Application:

Ibm eserver xseries servers

Unit Design:

Internal

Product Name:

36/72gb dds gen-5 tape drive

Interface Type:

Scsi

Drive Quantity:

1

Data Storage Capacity:

72.00 gigabytes

Drive Size:

5.25

Special Features:

Tape drive supports ultra2 low-voltage differential (lvd) scsi connections and high-speed tape backup stores up to 36gb native and 72gb compressed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505e0
