Alternating Current Voltage Rating In Volts:

100.0 and 240.0

End Application:

Navstar global positioning sys

Power Source:

Self-contained

Input Intelligence Type:

Digital

Output Intelligence Type:

Digital

Product Name:

Cisco catalyst ethernet switch

Special Features:

Rack unit form; 52gb ethernet ports; share 12gbps of capacity

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30800
