Overall Length:

3.945 inches

Overall Height:

0.334 inches

Overall Width:

2.750 inches

End Application:

C-17a support equipment

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Functional Description:

Ide type solid state flash memory

Supplementary Features:

Unformatted capacity is 2048 mbit; logical no. Of sectors/track 63; logical no. Of heads 16; logical no. Of cylinders 1938

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
