Overall Length:

8.610 inches

Overall Height:

1.740 inches

Overall Width:

6.080 inches

Operating Temperature Range:

+0.0/+40.0 degrees celsius

Design Type:

Hard disk

Power Source:

External

Unit Design:

Desk top

Voltage In Volts And Current Type:

240.0 ac

Product Name:

Dua-option comb external hard drive

Data Storage Capacity:

250.00 gigabytes

Special Features:

Usb 2.0 firewire external hard drive includes a usb 2.0 hub; dual option backup; 7200 rpm; 8mb buffer; mac/windows operating system; safe shutdown ensures the data has been safely transferred before shutting down the drive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505e0
