Operating Temperature Range:

+0.0/+50.0 degrees celsius

Features Provided:

Color capable and electromagnetic interference shielding and rfi shielding and ruggedized

Unit Design:

Drawer mounted

Input Device Type:

Keyboard and track ball

Output Device Type:

Liquid crystal

Special Features:

19.0 inch diagonal viewing area; high performance lcd controller; heavy duty industrial grade rack/drawer mount; metal keyboard enclosure; 82 key keyboard with ps/2 view drawing capability

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A507b0
