Alternating Current Voltage Rating In Volts:

5.0

Storage Temperature Range:

-30.0/+55.0 degrees celsius

Furnished Items And Quantity:

Cd-rom 1, power supply 1, user manual 1, installation guide 1, registration card 1

Current Rating In Amps:

1.0

Special Features:

Built in security using 128-bit encryption and authentication; lan printing; supports up to seven simultaneous users; works seamlessly from a desktop computer or pda

Frequency In Hertz:

2.4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A30800
