Alternating Current Voltage Rating In Volts:
5.0
Storage Tempurature Range:
-30.0/+55.0 degrees celsius
Furnished Items And Quantity:
Cd-rom 1, power supply 1, user manual 1, installation guide 1, registration card 1
Current Rating In Amps:
1.0
Special Features:
Built in security using 128-bit encryption and authentication; lan printing; supports up to seven simultaneous users; works seamlessly from
desktop computer or pda
Frequency In Hertz:
2.4
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
