End Application:

Workstation td-r 3231r-17

Current Rating:

224.000 milliamperes

Wattage Rating:

4.260 watts

Voltage In Volts And Current Type:

5.0 ac

Product Name:

Rocketport upci quad/db9 serial port expansion card

Special Features:

Product weight is 0.22 lbs; surge protection is 15kv@200a for 1ns; operating temp is 0 to 45 degrees celcius; heat output is 3.8 btu per hour; bus interface is 3.3 or 5.0 v pci; 4 serial connectors (db9 male); maximum cards per system is 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
