**End Application:**

Workstation td-r 3231r-17

**Current Rating:**

224.000 milliamperes

**Wattage Rating:**

4.260 watts

**Voltage In Volts And Current Type:**

5.0 ac

**Product Name:**

Rocketport upci quad/db9 serial port expansion card

**Special Features:**

Product weight is 0.22 lbs; surge protection is 15kv@200a for 1ns; operating temp is 0 to 45 degrees celcius; heat output is 3.8 btu per hour; bus interface is 3.3 or 5.0 v pci; 4 serial connectors (db9 male); maximum cards per system is 4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23900
