Overall Length:

21.000 inches

Overall Height:

1.750 inches

Overall Width:

19.000 inches

Current Rating:

3.600 amperes

Wattage Rating:

180.000 watts

Voltage In Volts And Current Type:

240.0 ac

Product Name:

Storage array positional trainer

Special Features:

4 x 300 gb 10k rpm hdds, up to 320 mb/sec data transfer rate per scsi channel, 2 scsi cables with a dual channel ultra320 scsi card-designed for rack mounted applications-includes sun storedge tm configuration and sun storedge tm diagnostic reporter

Specification Data:

Mil-std-810f government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900

Mil-std (military Standard):

Mil-std-810 spec.
