Overall Length:

6.300 inches

Overall Height:

3.900 inches

End Application:

Uav special ops

Frequency In Hertz:

5500.0

Operating Voltage In Volts:

10.0

Unit Design:

Rack mounted

Criticality Code Justification:

Agav

Special Features:

Intelligent daq device with programmable onboard decision making-precise i/o synchronization, timing, triggering and control with 25 ns resolution-up to 8 analog input channels, 16-bit resolution, 1 mhz simultaneous sampling rate-electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A502f0
