Operating Temperature Range:

-30.0/+70.0 degrees celsius

Image Refresh Rate In Hertz:

60.0

Display Type:

Liquid crystal

Voltage In Volts And Current Type:

24.0 dc

Highest Display Capability:

Vga

Diagonal Display Size In Inches:

12.0

Display Resolution:

1024 horizontal and 768 vertical

Special Features:

Touchscreen capability; hard coating anti-glare; sunlight readable; 16.7 million display colors; 500: 1 contrast; 1000 nits luminance; 19 programmable bezel buttons; 1 ea - power input, multipurpose data and composite video ports

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A506z0
